SFF-8098

Former Specification for

Force FTP Refresh in Windows Explorer

Rev 2.0   July 18, 2018

SECRETARIAT: SFF TA TWG

ABSTRACT: This specification formerly described how to force Windows Explorer to display screens from a website instead of from cache.

REASON FOR EXPIRATION: Obsolete
This specification is no longer relevant to SFF because SFF TA TWG documents are no longer stored on an FTP site. Instead, they may be found on the SNIA website (http://www.snia.org/sff/specifications).
