Peter Choi, Pure Storage; Mike Allison, Samsung;
Pardeep Bhatti, Sandisk

New Project Proposal: EDSFF E2 (SFF-TA-1042)

- This specification defines the mechanical attributes of a 2U form factor for a device that supports 64 NAND packages that will fit vertically in standard 2U rack mounted host systems.
- Editor(s): Anthony Constantine
- Supporters:
 1. Meta
 2. Micron
 3. Microsoft
 4. Pure Storage
 5. Samsung
 6. Sandisk

New Project Proposal: EDSFF E2 (SFF-TA-1042)

- Goals:

- Develop a form factor to support 64 NAND package sites
- EDSFF: Follow SFF-TA-1002 and SFF-TA-1009
- Leverage E1 and E3 form factors and learnings

- IP Declaration (if applicable):

- None

- General timeline: 1st draft will be available with the next 1-2 months.

Thank You
