To Whom It May Concern:

Molex hereby provides notice that it believes it has several patents that include one or more necessary claims directed toward features of the SFF-TA-1032 R1.0 specification. These patents include US Pat. Nos. 7,281,937; 7,736,171, 8,382,506, 8,414,324 and 8,678,839 as well as their foreign counterparts on the plug side. Additional patents include US Pat. Nos. 7,422,483; 7,534,142, RE43,330, 7,727,017, 7,862,347 and 7,914,303 as well as their foreign counterparts on the receptacle side. Molex hereby agrees that if any of above patents and/or patent applications (or any other patents Molex owns) have necessary claims, then Molex will grant a license on reasonable and non-discriminatory terms to companies requesting such a license. Please note that Molex reserves the right to increase the cost for a licensee that refuses to take a license and forces Molex to use legal action in order to enforce Molex's rights.

Sincerely,

Egide Murisa
