Subject: Luxshare IP Disclosure Statement for SFF-TA-1027 Rev 2.0

To Whom It May Concern:

Based on the SFF-TA-1027 Rev 2.0, Luxshare believes it has several patents that may include essential claims. These patents include US17376704, CN202010722708.3 and TW109131564 as well as their respective foreign counterparts, and may update accordingly from time to time. Luxshare hereby agrees that if any of above mentioned patent claims are essential to the implementation of the proposed specification, Luxshare will grant a license to those essential claims on reasonable and non-discriminatory terms to companies requesting such a license. Disclosure of a patent or patent application is not an admission that the patent or patent application necessarily contains Essential Claims. Please note that Luxshare reserves the right to increase the cost for a licensee who refuses to take a license and forces Luxshare to take legal action in order to enforce its rights.

Sincerely!

Wenwen Lin.

IP Department.
